Habeba Ehab Elrabowh

React.js / Node.js /MERN developer

Egypt, Tanta | habebaehab165@gmail.com | +201122323649
https://github.com/codestcode | https://www.linkedin.com/in/habeba-ehab-171204253/

PROFILE

React.js Front-End Developer with experience in building **AI-powered, interactive web applications** using **React.js, Tailwind CSS, JavaScript, and RESTful APIs**. Skilled in **Framer Motion**, **Redux Toolkit**, and **cloud hosting**. Strong foundation in **C++, Python, Algorithms, and Data Structures**. Currently expanding back-end skills with **Node.js, Express.js, and MongoDB** to become a **full-stack MERN developer**. Passionate about delivering scalable, modern UI/UX solutions.

PROFESSIONAL EXPERIENCE

React Front-End Trainee – Digital Egypt Pioneers Initiative (DEPI)
Cairo, Egypt | Jun 2025 – Present · Internship (Hybrid)

- Participating in a government-backed training initiative focused on building modern front-end web applications using **React.js**, **Bootstrap, Typescript ,CSS**, and **JavaScript**.
- Developing hands-on projects with mentorship to strengthen real-world problem-solving and **UI/UX** design skills.
- Collaborating with fellow trainees to implement responsive layouts, integrate APIs, and manage code with **Git** and **GitHub**.
- Enhancing both technical and teamwork abilities in a hybrid learning environment.

Freelance React Front-End Developer
Remote | 2024 – Present

- Junior developer building **modern, responsive web applications** using React.js, Tailwind CSS, and related front-end tools
- **Clinic Management Application**:
    1. Redesigned the entire UI to improve usability and modernize the look and feel
    2. Integrated **Redux** for scalable state management
    3. Connected frontend components with **RESTful APIs** to ensure seamless data flow
    4. Collaborated with a **cross-functional team** to deliver features efficiently and maintain high code quality
- Seeking **full-time or internship opportunities** to contribute to real-world projects and grow professionally

Problem Solving Instructor – HIMIT Problem Solving Community
Kafr El-Sheikh, Egypt | [2024] – [present]

- Designed and delivered course content for algorithms and data structures using C++ and Python.
- Taught 20+ students through theoretical sessions and hands-on problem-solving workshops.
- Helped students improve problem-solving abilities by an average of 30%.
- Mentored students in applying efficient solutions to real-world challenges.

HR Recruiter & Marketing Team Member – Talent Hub
Remote | [2024] – [2025]

- Published job listings for roles like customer service on social media, increasing applicant engagement by 25%.
- Managed applicant data in Excel for organized tracking and efficient follow-ups.
- Designed branded job posters to maintain a consistent and professional visual identity.
- Created a detailed recruitment process presentation used for onboarding and training new HR team members.

EDUCATION

Higher Institute Of Engineering And Technology	Kafr El-Sheikh, Egypt
Bachelor of Computer Science	
Awards: 3.7 GPA (TOP 10%)	**2023-Present**

SKILLS

Technical Skills

★**Front-End**: React.js, Tailwind CSS, React Router, Vite, JavaScript, HTML, CSS, RESTful APIs ,AI-Powered ,Framer motion ,Cloud host , Redux ToolKit

★**Programming Languages**: C++, Python, C#, Algorithms, Data Structures ,Problem Solving

★**Database:** MySQL, SQL

★**Back-End**: Node.js (Still Exploring), Express.js (Still Exploring)

★**Tools:** Git, GitHub, AI Integration

Soft Skills

• **Problem Solving**: Excelled in competitive programming, solving 50+ algorithmic challenges with optimized solutions

• **Teamwork:** Collaborated effectively in ICPC/ACPC contests and team projects, enhancing group efficiency

• **Communication**: Delivered engaging lectures to 20+ students, improving their programming skills by 30%

• **Adaptability:** Quickly learned and applied new technologies like Vite, Tailwind CSS, and AI APIs in projects

• **Time Management:** Balanced academic excellence (3.7 GPA, top 10%) with competitive programming and teaching

PROJECTS

Portfolio Website

- Built a modern, responsive portfolio using **React**, **Tailwind CSS**, and **Framer Motion**
- Collaborated with **UI/UX designer** to ensure intuitive, user-centered design
- Implemented smooth animations and performance-optimized component
- Showcases projects, skills, and contact details in a clean modern layout
- Deployed via **GitHub** for version control: **https://github.com/codestcode/portfoliooo**

Freelance Template Portfolio Website

- Developed a responsive and visually engaging portfolio using **React, Tailwind CSS, and Framer Motion**
- Designed and implemented interactive hero sections, smooth **animations**, and orbiting tech icons to highlight technical expertise
- Showcased projects, skills, and professional details in a modern, **user-friendly design optimized for mobile and desktop**
- Showcases projects, skills, and contact details in a clean modern layout
- Version-controlled via GitHub: https://github.com/codestcode/portfoliooo

"Sycnfocus" - Ai-Powered Smart Habit Tracker And Dashboard

- Developed a productivity app using React 19, Tailwind CSS, and Vite, featuring a Smart Dashboard, Study Tracker, and Expense Tracker for enhanced user productivity.
- Integrated Firebase for real-time syncing and user authentication, and Recharts for visualizing study hours and expense data, improving user engagement.
- Implemented AI-powered suggestions to deliver personalized productivity tips, optimizing performance with localStorage for offline data persistence.
- Deployed via **GitHub** for version control: github.com/codestcode/syncfocus.

AI-Powered React Recipe Generator

- Built a full-stack React.js application, generating unique recipes based on user-inputted ingredients.
- Integrated AI-driven APIs to provide tailored recipe suggestions, reducing response time by 15% through optimized Node.js logic.
- Designed a responsive, modern UI using CSS and React.js, managing state with hooks for seamless user interaction.
- Deployed using **Git/GitHub** for version control: https://github.com/codestcode/mealmoment
